

The **Institute of Molecular Biology**
in collaboration with
the **Institute of Pharmacology and Toxicology of Wurzburg University**
(Germany)
is organizing the training in

**"Application of Flow Cytometry and
FISH in leukemia diagnostics".**

The training will be held at the Institute of Molecular Biology
on **November 18-21, 2019**
and conducted by:

Dr. Lourdes Cordon and Dr. Gayane Avetisyan
*(University and Polytechnic Hospital La Fe,
Hematology Diagnostic Unit, Valencia, Spain).*

The training is fully funded by the **German Ministry for Education and Science.**

The participation is **free of charge.**

Prerequisites for participation:

1. Strong background in flow cytometry and/or FISH technique
2. Employment experience in diagnostics facilities
3. English knowledge

Selection will be based on an applicants' CVs.

The selected applicants will be notified via email.
